## ENVIRONMENTAL JUSTICE ANALYSIS & REPORTS

In accordance with Title VI of the Civil Rights Act of 1964, each Federal agency shall ensure that all programs or activities receiving Federal financial assistance that affect human health or the environment do not directly, or through other arrangements, use criteria, methods, or practices that discriminate on the basis of race, color, or national origin. Part of Title VI reads, "No person in the United States shall, on the ground of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity receiving Federal financial assistance."

The three fundamental environmental justice (EJ) principles are:

- To avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, including social and economic effects, on minority populations and low-income populations;
- To ensure the full and fair participation by all potentially affected communities in the transportation decision-making process; and

- To prevent the denial of, reduction in, or significant delay in the receipt of benefits by minority populations and low-income populations.

Rush County, Indiana is committed to these three environmental justice principles in all work that the County performs.

## LIMITED ENGLISH PROFICIENCY (LEP) POLICY

On August 11, 2000, the President signed an executive order, Executive Order 13166: Improving Access to Service for Persons with Limited English Proficiency (LEP), to clarify Title VI of the Civil Rights Act of 1964. It has as its purpose, to ensure meaningful access to programs and services to otherwise eligible persons who are not proficient in the English language. In addition, The US Department of Transportation published Policy Guidance Concerning Recipients' responsibilities to Limited English Proficient Person in the December 14, 2005 Federal Register. This guidance outlines the following four factors that the County uses to access the LEP populations in Rush County, Indiana.

1. The number and proportion of LEP persons eligible to be served or likely to be encountered by the County.
2. The frequency with which LEP individuals come into contact with the program, activity or service.
3. The nature and importance of the program, activity, or service provided by the program.
4. The resources available to the County and costs.

In addition, Rush County, Indiana has implemented the safe harbor provision whereby it identifies and translates all vital documents into any language where the 5% threshold is met whereby 5% or more of the population in the county both:

- Does not speak English very well AND
- Primarily speaks another specific language as identified in current census data or other publicly available records.

---

## SUMMARY OF THE FOUR FACTOR ANALYSIS

### **Factor 1:**

The number and proportion of LEP persons eligible to be served or likely to be encountered by the County can only be estimated until the actual number of persons who can speak English less than “very well” are documented as needing assistance by County Staff. With this Title VI Plan being in early development stages and considered a document that may need regular updates, US Census Bureau information is being used at this time. The total population is provided below to shown general distribution of race and ethnicity in the community. The estimated number of persons that may not speak English “very well” is following in the US Census Bureau 2006-2010 American Community Survey.

The U.S. Census Bureau provides statistics from 2010 for the Rush County, Indiana as follows:

**Total population = 17,392**

Population by Ethnicity:

Hispanic or Latino = 278 Non-Hispanic or Latino = 16,662

Population by Race:

White = 16,905

African American = 174

Asian = 52

American Indian or Alaska Native = 52

Native Hawaiian and Pacific Islander = 0

Other = 0

Identified by two or more = 209.

The US Census Bureau 2006-2010 American Community Survey 5-Year Estimates under SELECTED SOCIAL CHARACTERISTICS estimates the number of people in Rush County, Indiana who speak a language other than English to be 591 with those speaking English less than “very well” estimated at 3.4% or approximately 591 individuals who may be considered limited in English proficiency. The margin of error is +/- 0.1% so the actual number may fluctuate from 608 to 573 individuals.

According to the census numbers above there may be up to 608 individuals who live in the Rush County, Indiana that may be considered as LEP. Based on actual contact between County Staff and the community there have been very few requests from anyone in the service area asking the County to provide language translation services. Therefore, the LEP population is probably even less than the estimate shown above.

**Factor 2: The frequency with which LEP individuals come into contact with the program, activity or service:**

Due to the infrequent requests for translation services, there appears to be a minimal need for translation services from the County. This may be attributed to the high percentage of younger people 22.7% for ages up to 17 who are available as family members for translation services.

**Factor 3: The nature and importance of the program, activity, or service provided by the program:**

If at any time a LEP individual requests translation services that are considered important such that denial or delay of access or services or information could have serious or even life-threatening implications, the County will provide, upon request, services to assist the LEP population including translation of vital County documents and interpretation services.

**Factor 4: The resources available to the County and costs:**

---

<u>Service</u>	<u>Rate</u>
Easter Seals Crossroads provides Sign Language Interpretation \$70.00/hour	
Mario Hayes Spanish-English Interpretation	\$50.00/hour
Language Lines Solutions via telephone provides multiple language interpretations \$3.95/minute Requires use of credit card	
Google Translate provides multiple language interpretations charge	No

---

## SUMMARY OF LEP ACCOMMODATION PLAN

- Rush County, Indiana strives to serve its population to the best of its ability and will provide upon request, services to assist the LEP population including translation of vital documents and interpretation services deemed necessary to provide meaningful access to County services.
- A U.S. Census Bureau I Speak card is available as part of this document. This card allows LEP individuals to communicate their preferred language to County Staff whereas County Staff may then access a translation service as determined by the County.
- Rush County, Indiana utilizes a voluntary public involvement survey to collect information regarding persons affected by proposed projects. The survey permits respondents to remain anonymous, while voluntarily answering questions regarding their gender, ethnicity, race, age, sex, disability status, and household income. Once the survey data has been collected, it will be reviewed and then the survey will be placed in a file for future reference. In the case enough surveys are collected over time to show a significant increase in LEP populations, the County may consider changes to their LEP policy. Completed surveys shall be retained for a period of three years from the date of the meeting and/or completion of the related project, if applicable.
- The County reviews written Title VI complaints and ensures every effort is made to resolve complaints informally at the local or regional level and review and update the County's Title VI plan and procedures as required.
- Staff for the County will be provided training on the requirements for providing meaningful access to services for LEP persons and new employees will receive the same training.
