GEISE/STEVENS DRAIN

The Surveyor read a report updating the Board on this drain. Said report can be found in the file. This report recommended setting up a maintenance assessment on this drain to get it out of debt. COUNTY FARM DRAIN

Niedenthal stated that there was too much water coming off of the county property and running across his property to the Big Flatrock River. He also stated that the tile that is there is either too small or partially blocked with roots or both and was causing the water to flow on top of the ground instead of through the tile. A waterway was mentioned but he said that he would lose too much farm ground if one was installed. The Surveyor mentioned a waterway that could be farmed through. Niedenthal was not familiar with this. After much discussion the Board asked the Surveyor to get more information on a waterway that can be farmed through and some prices on a bigger tile.
