GENERAL INFORMATION

"Zoning is built on the premise that the private market for land use, in a mature urban society, cannot be permitted to make land use allocations without creating severe diseconomies in the urban development pattern."* Zoning also derives from the belief that the individual land owner does not and cannot, in today's complex technological society, fully understand how to make safe and efficient use of his land, both in the individual and the societal context. The author of a zoning code must also be aware that often the individual does not care about such things. Every loophole must be closed, so that the unscrupulous

ones have no way to evade the spirit of the ordinance. That is the tone in which many zoning ordinances are written.

However, the basic controversy which every zoning ordinance attempts to resolve is that of the conflict between the rights of the individual as opposed to the rights of the society and vice versa. Possible resolutions of this conflict range from anarchy to complete societal control of every action and thought of the individual. In the United States, we tend to take a middle course in everything, because we generally believe excesses are not desirable. Zoning is no different. The general trend in zoning has been to maintain certain rights of the individual, but to carefully control them in the hope that his development will not have adverse effects on the society around him. This is the basic aim of zoning in general, and this ordinance in particular.

Zoning ordinances strive to promote an orderly pattern of development and to separate incompatible land uses, such as industrial uses and homes, to ensure a compatible environment. The Zoning Ordinance is the legal instrument to regulate and establish limits on the use of land and structures size, shape, height, and setback to accomplish orderly development.

An ordinance establishing comprehensive zoning regulations for the county of Rush and providing for the administration, enforcement, and amendment thereof, in accordance with the provisions of State Law and for the repeal of all ordinances in conflict herewith:

WHEREAS: State Law empowers the county to enact a zoning ordinance and to provide for its administration, enforcement, and amendment and,

Formatted: Indent: Left: 0.5"

WHEREAS: the Board of County Commissioners, the City Council and the Town Board of Trustees deems it necessary, for the purpose of promoting the health, safety, or general welfare of Rush County to enact such an ordinance, and,

WHEREAS: the Board of County Commissioners, the City Council, and the Town Board of Trustees pursuant to the provisions of State Statutes has appointed an Area Plan Commission to recommend the boundaries of the various original districts and appropriate regulations to be enforced therein, and,

WHEREAS: the Area Plan Commission has divided the County into districts and has prepared regulations pertaining to such districts in accordance with a comprehensive plan to the end that adequate light, air, convenience of access and safety from fire, flood, and other danger may be secure; that congestion in the public streets may be lessened or avoided; that property values may be preserved, that the public health, safety, comfort, convenience and general welfare may be promoted, and

WHEREAS: the Area Plan Commission has given reasonable consideration, among other things to the character of the districts and their particular suitability for particular uses, with a view to conserving the value of buildings and encouraging the most appropriate use of land throughout the County and,

WHEREAS: the Area Plan Commission has given due public notice of hearings related to zoning districts, regulations, and restrictions, and has held such public hearings, and, WHEREAS: all requirements of Chapter 138, Acts of 1957, as amended with regard to the preparation of the ordinance has been met;

NOW THEREFORE BE IT ORDAINED BY THE PEOPLE OF THE COUNTY OF RUSH, INDIANA:

1.1) 1.1 OFFICIAL ZONING MAP -

The County is hereby divided into zones, or districts, as shown on the <u>Official Zoning Map</u> which, together with all explanatory matter thereon is hereby adopted by reference and declared to be a part of this ordinance.

The Official Zoning Map shall be identified by certification by and bearing the seal of the county under the following words: "This is to certify that this is the Official Zoning Map referred to in Section 1 of Ordinance Number _____ of the County of Rush, State of Indiana, (or Town of Carthage, or Town of Glenwood) together with the date of adoption of the ordinance." (Note: Rushville City Ordinance adopted March 2006)

Official

- 1.2) The Official Zoning Maps may be kept electronically in a geographic information system (GIS) document file and such electronic data shall constitute an integral part of the Official Zoning Map. The Zoning Administrator may make copies of the Official Zoning Maps available to the public for a reasonable fee.
- 1.3) Amendments to the official zoning maps amended to will be stored in a zoning map amendments file.

Official zoning maps shall include flood hazard areas as delineated on the Flood Insurance Rate Maps-most recent Indiana Department of Natural Resources Best Available maps.

Amendments to the flood maps do not automatically update the official GIS map. The floodplain information on the official GIS map will be updated when new Best Available maps are made available to Rush County and Flood Boundary Floodway Maps included in the Flood Insurance Study for Rush County dated December 1, 1982approved by the Area Planning Commission and County Commissioners. Amendments to the maps can be obtained from the Rush County Planning Office.

If in accordance with this provision of the ordinance and Chapter 138, Acts of 1957, changes are made in district boundaries or other matter portrayed on the Official Zoning Map, such changes shall be entered on the Official Zoning Map promptly after the amendment has been approved by the Board of

Formatted: Font: 11 pt, Bold

Formatted: Indent: Left: 0.88"

County Commissioners or Town Board of Trustees with an entry on the Official Zoning Map as follows:

On _______ by official action of the Board of County Commissioners (or City Council or Town Board of Trustees), the following changes were made in the Official Zoning Map:

which entry shall be signed by the President of the Plan Commission and attested by the County

Auditor, or town Clerk Treasurer. No amendment to this ordinance which involved matter portrayed on
the Official Zoning Map shall become effective until after such change and entry has been made on said
map.

No changes of any nature shall be made in the Official Zoning Map or matter shown thereon except in conformity with the procedures set forth in this ordinance. Any unauthorized change of whatever kind of any person or persons shall be considered a violations of this ordinance and punishable as provided under Section 16.

Regardless of the existence of purported copies of the Official Zoning Map which may from time to time be made or published, the Official Zoning Map which shall be located in the office of the County Auditor Area Planning shall be the final authority as to the current zoning status of land and water area, buildings, and other structures in the county.

<u>1.2</u>All changes to the official zoning map should be stored in a text file named "Zoning Map Changes" and kept secure and updated by the Executive Director for The Area Planning Commission.

1.4) Replacement of Official Zoning Map -

In the event that the Official GIS Zoning Map becomes damaged, destroyed, lost, or difficult to interpret because of the nature or number of changes and additions, the Area Planning Commission and the Board of County Commissioners, or Town Board of Trustees may by resolution adopt a new Official Zoning Map which shall supersede the prior Official Zoning Map. The new Official Zoning Map may correct drafting or other errors or omissions in the prior Official Zoning Map, but no such correction shall have the effect of amending the original Official Zoning Map or any subsequent amendment thereof. The new Official Zoning Map shall be identified by the signature of the President of the Plan

Commission attested by the County Auditor, or Town Clerk and bearing the seal of the county, or town under the following words: "This is to certify that this Official Zoning Map supersedes and replaces the Official Zoning Map adopted ______ as part of Ordinance No. _____ of the county of Rush, Indiana" (or Town of Carthage or Town of Glenwood). Unless the prior Official Zoning Map has been lost, or has been totally destroyed, the prior map or any significant parts thereof remaining shall be preserved, together with all available records pertaining to its adoption or amendment. A copy of the resolution to adopt a new Official Zoning Map should be kept in the Area Planning Office.

2) SECTION 2: RULES FOR INTERPRETATION OF DISTRICT BOUNDARIES

Where uncertainty exists as to the boundaries of districts as shown of the Official Zoning Map, the following rules shall apply:

- 2.1) 2.1 Boundaries indicated as approximately following the center lines of streets, highways, or alleys shall be considered to follow such center line;
- 2.2) 2.2 Boundaries indicated as approximately following platted lot lines shall be construed as following such lot lines;
- 2.3) 2.3 Boundaries indicated as approximately following city limits shall be construed as following such city limits;
- 2.4) 2.4 Boundaries indicated as following railroad lines shall be construed to be midway between the main tracks;

3) SECTION 3: APPLICATION OF DISTRICT REGULATIONS

The regulations set by this ordinance within each district shall be minimum regulations and shall apply uniformly to each class or kind of structure or land, and particularly, except as hereinafter provided:

3.1) 3.1 Other Uses Determined by Executive Director

The Executive Director shall have the authority to determine other uses, in addition to those specifically listed in this Article, which may be permitted in each of the various zones, when in her/his judgment, such other uses are similar to and no more objectionable to the public welfare than those listed. The Executive Director shall also have the authority to interpret zoning regulations when the meaning of the regulation is not clear, either in general or as it applies to a specific property or situation. These listed authorities also extends to interpretation of Special Exception Uses to be presented to the Board of Zoning Appeals. Uses that require repeated interpretation should be brought before the Area Plan Commission for ordinance inclusion or clarification. All interpretations can be subject to administrative review.

3.2) No building, structure, or land use change shall hereafter be erected, constructed, reconstructed, moved, or structurally altered except in conformity with all of the regulations herein specified for the district in which it is located (See exception in Agriculture District 6.3.13).7.13.3).

3.3) 3.2 No building or other structure shall hereafter be erected or altered:

3.3.1) To exceed the floor area ratio

3.3.2) To have narrower or smaller rear yards, front yards, side yards, or open ——spaces than herein required; or in any other manner contrary to the provisions of this ordinance.

6.1 Table: Schedule of Uses

<u>6.1.1</u> The Schedule of Uses Table (See Appendix E) was prepared using a modified form of the Standard System for Identifying and Coding Land Use Activities. A 3 digit level of detail is indicated. All 3 digit numbers and descriptions of activities contain all 4 digit numbers and

descriptions of activities as well. For example, if "711, Cultural Activities" is indicted as permitted in the R district, then "7111: Libraries," "7112 Museums." "7113: Art Galleries," and "7119: Other Cultural Activities," are permitted as well. (See Appendix E for the classification system.)

<u>6.1.2</u> The table describes Permitted Uses; Special Exceptions and Prohibited uses for each district established by this ordinance.

6-PUD: Planned Unit Development District: Provisions for flexibility to encourage creative land planning and preservation of open space.

MH: Mobile Home District: Regulate and restrict mobile home residences to certain specific areas.

M: Manufacturing District: Provisions where manufacturing uses may efficiently locate with a minimum of adverse effects, including pollution, to other uses in the county.

B: Business District: Provisions for certain commercial and other services generally found in city and town centers.

C: Commercial District: Provisions for commercial uses generally found serving local area in town, highway traffic, etc., and to contain these activities as not to become a nuisance to other types of uses.

A-1: Rural Residential District: Provisions for single family housing for those not engaged in farming but seek housing outside the incorporated city limits. The use of municipal services and utilities shall be encouraged.

A-1R: Restricted Agricultural District: Provisions for single family housing as well as areas for livestock and agricultural activity.

A-2: Agri-Business District: Provisions to allow agricultural-based business to locate in close proximity to related agricultural activity.

A-3: Regulated Livestock District. Provisions to encourage agricultural uses.

A-4: Agricultural Park District: Provisions for industrial-type uses that are related to or service agricultural activity.

O: Open Land District (FP): Provisions and regulations for floodplain uses.

6.2.6) Tower Spacing

Towers which exceed one-hundred (100) feet in height shall be located at least six (6) miles from other towers which exceed one-hundred (100) feet in height.

6.3.6)6.2.7) Co-location

All towers exceeding one-hundred (100) feet in height shall be designed and constructed so that more than one wireless telecommunication company can attach antenna to the tower. Police and fire departments are exempt from the co-location requirements of this section. As a condition of granting a special exception, the Board of Zoning Appeals shall require the following written Agreement with the Petitioner:

THIS AGREEMENT is made this ____ day of ______, 20__, between _____ (Petitioner) and the Rush County, Indiana Area Board of Zoning Appeals. For valuable consideration, the parties agree as follows: (1) The Petitioner agrees to allow up to two (2) other wireless communication companies to attach up to twelve (12) antennas each to the Petitioner's tower and, agrees to allow public safety agencies to occupy up to four antenna free of charge. (2) No modification of the Agreement will be effective unless it is in writing and is signed by both parties. The Agreement binds and benefits both parties and successors. This document and any other stipulations that are a part of the granting of the Improvement Location Permitspecial exception is the entire Agreement between the parties. The parties have signed this Agreement on the date specified at the beginning of the Agreement.

6.4.6)6.3.6) <u>DEFINITIONS</u>

- a)(a) AES PROJECT: means the collection of WES or SES as specified in the siting approval application.
- b)(b) APPLICANT: means the entity or person who submits to the Executive Director an application for the siting of any AES or thereafter operates or owns an AES.
- e)(c) <u>FINANCIAL ASSURANCE</u>: Financial assurance means cash escrow with the County.
- **d)(d) OPERATOR:** means the entity responsible for the day-to-day operation or maintenance of the AES, including any third party subcontractors.
- e)(e) OWNER: means the entity or entities with an equity interest in the AES, including their respective successors and assigns. Owner does not mean (i) the property owner from who the land is leased for locating the AES (unless the property owner has an equity interest in the AES); or (ii) any person holding a security interest in the AES solely to secure an extension of credit, or a person

foreclosing on such security interest provided that after foreclosure, such person seeks to sell the AES within one year of such event.

- **PROFESSIONAL ENGINEER:** means a qualified individual who is licensed as a professional engineer in any state in the United States and approved by the APC Executive Director.
- g)(g) PRIMARY STRUCTURE: means, for each property, the structure that one (1) or more persons occupy the majority of the time on that property for either business or personal reasons. Primary Structure includes, but is not limited to, structures such as residences, commercial buildings, hospitals, day care facilities, hunting sheds, storage sheds, pool houses, unattached garages and barns.
- h)(h) PRIMARY VOLTAGE A.C. voltage at which power is distributed or transmitted by a public electrical utility (i.e. starting at 2400 volts and up).
- i)(i) SECONDARY VOLTAGE Low voltage a.c. supplying one ultimate user (ie. Under 600 volts).
- j)(j) SOLAR ENERGY SYSTEM ("SES") AAny system that converts solar radiation into another form of energy (ie electricity-via photovoltaic cells., heated water, steam, compressed air, chemical conversion, etc)
- **k)**(**k**) **SOLAR UNCONDITIONED OUTPUT** D.C. output not converted to A.C.
- **<u>I)(I)</u>** WES TOWER: means the support structure to which the nacelle and rotor are attached, free standing or guyed structure that supports a wind turbine generator.
- m)(m) WES TOWER HEIGHT: means the distance from the rotor blade at its highest point to the top surface of the WES foundation.
- together convert wind energy into electricity, including but not limited to the rotor, nacelle, generator, WES Tower, electrical components, WES foundation, transformer, electrical cabling for the WES Tower to the Substation(s), switching stations, meteorological towers, communications facilities, and other required facilities and equipment, as related to the WES project. throughout Rush County Zoning Ordinance to Wind Energy Conversion Systems (WECS) are equally defined by the definition of Wind Energy Systems (WES).

- O(o) Commercial WES: is defined for the purposes of the Rush County

 Zoning Ordinance to mean a wind energy system constructed on the property of another by a company or corporation or other entity, whose general intent is to capture wind energy and place it on a public utilities electrical grid. Any company, corporation, or entity that retains ownership of the WES after construction must become a public utility recognized by the Indiana Utilities Regulatory Commission.
- p)(p) Non-Commercial WES: defined as a wind energy system that is generally smaller than a commercial WES and the primary purpose is to collect wind energy for purpose of supplying energy to the owners, such as a business, school, or factory, and not connected at primary voltages.
- **(q)** Micro-WES: defined as a small wind energy system whose general purpose is to provide energy to a residential or small business user such as a farmer or homeowners, and not connected to primary voltages.
- meteorological Towers These style WES are defined as Towers to gather wind energy data to determine project feasibility, and not connected to any electrical power grid.

- Height: Any WES or meteorological tower greater than thirty-five (35) feet in height shall require a special exception use permit. For all WES there is a height limitation of 200 feet.
- (including guy wires) shall not extend into a required setback by the zoning district or be closer than twelve (12) feet to any primary structure (unless

supported by the primary structure), or right-of-way easement for any aboveground telephone, electrical transmission or distribution lines.

e)(c) Setback Requirements

H_(d) WES greater than thirty-five (35) feet in height shall have minimum setback distances of 2640 feet from the center of the tower to all property lines.

d)(e) Safety Design and Installation Standards

1.(1) Equipment Type

A.(A) All turbines shall be constructed of commercially available equipment

B.(B) Meteorological towers may be guyed.

Experimental, or proto-type equipment: Experimental or proto-type equipment still in testing which does not fully comply with industry standards, may be approved by the Board of Zoning Appeals per the variance process established by this Ordinance.

2.(2) Industry Standards and other Regulations.

3. All WES shall conform to applicable industry standards, as well as all local, state and federal regulations. An applicant shall submit certificate(s) of design compliance that wind turbine manufacturers have obtained from Underwriters Laboratories, or an equivalent third party.

4.(3) Color and Finish.

A: Wind turbines and towers: All wind turbines, blades and towers that are part of WES shall be white, grey, or another non-obtrusive color.

5.(4) Signs and Warnings

A.(A) The following notices shall be clearly visible on all WES facilities:

+i "No Trespassing" signs shall be attached to any perimeter fence.

2-ii "Danger" signs shall be posted at the height of five (5) feet on WES towers and accessory structures

3.iii A sign shall be posted on the tower showing an emergency telephone number

4.iv The manual electrical and/or over-speed shutdown disconnect switch(es) shall be clearly labeled.

D.(B) Meteorological Towers - Consideration shall be given to paint aviation warning on all meteorological towers.

10.(5) Climb Prevention

41. All WES towers exceeding 35 feet shall include features to deter climbing or be protected by anti-climbing devices such as:

A.(A) Fences with locking portals at least six (6) feet in height; or

Anti-climbing devices fifteen (15) feet vertically from the base of the WES tower; or

C.(C) Locked WES tower doors.

12.(6) Blade Clearance

13. The minimum distance between the ground and any protruding blades(s) utilized on all WES, exceeding the 35 foot height, shall be twenty-five (25) feet, as measured at the lowest point of the arc of the blades. The minimum distance shall be increased as necessary to provide for vehicle clearance in locations where over-sized vehicles might travel.

14.(7) Lighting

A:(A) Shielding - lighting may require shielding so that no glare extends substantially beyond any WES structure.

4. At no time shall a wind turbine's tower, nacelle, or blades create shadow flicker on any non-participating landowner's property. For the purpose of this section a non-participating landowner shall be defined as a landowner on which a tower does not physically sit.

e)(c) Noise and Vibration

4. The noise level of all WES shall be no greater than thirty-two (32) decibels measured from the nearest property line. This level may only be exceeded during short-term events such as utility outages and/or severe wind storms. All other noise and vibration levels shall be in compliance with all county, state and federal regulations.

d)(d) Sine wave deviations

4. Waveform deviations from WES that occur within the electrical environment of a non-participating residence, must conform to acceptable parameters within the Information Technology Industry Council (ITIC) curve at the point of common coupling at the residence.

e)(e) Utility Interconnection

1. The WES, if interconnected to a utility system, it shall meet the requirements for interconnection and operate as prescribed by the applicable regulations of the electrical utility, Federal and State regulations, amended from time to time.

f)(f) Emergency Response

4. WES applicant must cooperate with the local fire department to develop an Emergency Response Plan including access for training.

g)(g) Other Appurtenances

1. No appurtenances other than those associated with the wind turbine operations shall be connected to any wind tower except with express, written permission by the Board of Zoning Appeals.

b)(b) Declaration of Public Nuisance

4. Any WES thereof declared to be unsafe by the Rush County Executive Director by reason of inadequate maintenance, dilapidation, obsolescence, fire hazard, damage or abandonment is hereby declared to be a public nuisance and shall be abated by repair, rehabilitation, demolition or removal in accordance with the approved Decommissioning Plan.

e)(c) Decommissioning Plan

1. Prior to receiving an Improvement Location Permit or Building Permit, or siting approval under this Ordinance, the Board of Zoning Appeals and the applicant, County Commissioners, and owner and/or operator shall formulate a decommissioning plan outlining the anticipated means and cost of removing a WES at the end of their serviceable life or upon becoming a discontinued or abandoned use to ensure that the WES is properly decommissioned.

2.(1) Content

3. A decommissioning plan shall include, at a minimum, language to the following:

A.(A) Assurance: Must provide written assurance and financial assurance based on cost estimates in 6.3.9)(c)(1)(B) that the facilities will be properly decommissioned upon the project life or in the event that the facility is abandoned.

B.(B) Cost estimates: The applicant shall provide a contractor cost estimate for demolition and removal of the WES facility which cost estimate shall include any offsetting affects of salvage value. The cost estimates shall be made by a competent party: such as a professional

engineer, a contractor capable of decommissioning or a person with suitable expertise or experience with decommissioning WES and approved by the Board of Zoning Appeals.

4.(2) Discontinuation and Abandonment

A:(A) Discontinuation: All WES shall be considered a discontinued use after six (6) months without energy production, unless a plan is developed and submitted to the Executive Director outlining the steps and schedule for returning the WES to service.

B-(B) Abandonment by the owner or operator: In the event of abandonment by the owner or operator, the applicant will provide an affidavit to the Executive Director representing that all easements for wind turbines shall contain terms that provide financial assurance, including access to the salvage value of the equipment, for the property owners to ensure that facilities are properly decommissioned within one (1) year of expiration or earlier termination of the project.

5.(3) Removal

6. An applicant's obligations shall include removal of all physical material pertaining to the project improvements within three hundred sixty-five (365) days of the discontinuation or abandonment of the facility, and restoration of the project area to as near as practicable the condition of the site immediately before construction of such improvements by the owner, (unless otherwise agreed to by the property owner) or by Rush County at the owner's expense.

7.(4) Written Notices

8. Prior to implementation of the existing procedures for the resolution of such default(s), the Executive Director shall first provide written notice to the owner and/or operator, setting forth the alleged default(s). Such written notice shall provide the owner and/or operator a reasonable time period not to exceed sixty (60) days, for good faith negotiations to resolve the alleged default(s).

6.4.18)6.3.18) Operation and Maintenance

a)(a) Operator

4. Unless otherwise specified through a contract or agreement, the property owner of record will be presumed to be the responsible party for owning and maintaining the Solar Energy System.

b)(b) Physical Modifications

1. In general, any physical modification to any SES that alters the mechanical load, or major electrical components shall require re-certification. Like-kind replacements shall not require re-certification. Therefore, prior to making any physical modification, the owner or operator shall confer with the Executive Director and Board of Zoning Appeals to determine whether the physical modification requires re-certification.

e)(c) Declaration of Public Nuisance

1. Any SES thereof declared to be unsafe by the Rush County Executive Director by reason of inadequate maintenance, dilapidation, obsolescence, fire hazard, damage or abandonment is hereby declared to be a public nuisance and shall be abated by repair, rehabilitation, demolition or removal in accordance with the approved Decommissioning Plan.

d)(d) Shadows

4. No solar apparatus shall cast an appreciable shadow on surrounding properties solar production facilities.

e)(e) Easements

4. Solar easements are not controlled or arbitrated by Rush County

f)(f) Decommissioning Plan

Prior to receiving an Improvement Location Permit or Building Permit, or siting approval under this Ordinance of a primary voltage connected SES, the Board of Zoning Appeals and the applicant, owner and/or operator shall formulate a decommissioning plan outlining the anticipated means and cost of removing a SES at the end of their serviceable life or upon becoming a

discontinued or abandoned use to ensure that the SES is properly decommissioned.

2.(1) Content

3. A decommissioning plan shall include, at a minimum, language to the following:

A.(A) Assurance: Written assurance that the facilities will be properly decommissioned upon the project life or in the event that the facility is abandoned.

Cost estimates: The applicant shall provide a contractor cost estimate for demolition and removal of the SES facility which cost estimate shall include any offsetting effects of salvage value. The cost estimates shall be made by a competent party: such as a professional engineer, a contractor capable of decommissioning or a person with suitable expertise or experience with decommissioning SES.

4.(2) Discontinuation and Abandonment

A.(A) Discontinuation: All SES shall be considered a discontinued use after six (6) months without energy production, unless a plan is developed and submitted to the Executive Director outlining the steps and schedule for returning the SES to service.

B-(B) Abandonment by the owner or operator: In the event of abandonment by the owner or operator, the applicant will provide an affidavit to the Executive Director representing that all easements for solar collection shall contain terms that provide financial assurance, including access to the salvage value of the equipment, for the property owners to ensure that facilities are properly decommissioned within one (1) year of expiration or earlier termination of the project.

5.(3) Removal

6. An applicant's obligations shall include removal of all physical material pertaining to the project improvements to no less than a depth of six (6) feet below ground level within three hundred sixty-five (365) days of the discontinuation or abandonment of the facility, and restoration of the

project area to as near as practicable the condition of the site immediately before construction of such improvements by the owner, (unless otherwise agreed to by the property owner) or by Rush County at the owner's expense.

7.(4) Written Notices

Prior to implementation of the existing procedures for the resolution of such default(s), the Executive Director shall first provide written notice to the owner and/or operator, setting forth the alleged default(s). Such written notice shall provide the owner and/or operator a reasonable time period not to exceed sixty (60) days, for good faith negotiations to resolve the alleged default(s).

9.(5) Costs Incurred by the County

10. If the County removes a solar plant and appurtenant facilities, it may sell the salvage to defray the costs of removal. By approval, the permittee or grantor grants a license to Rush County to enter the property to remove the solar plant pursuant to the terms of an approved decommissioning plan.

6.4.19)6.3.19) Liability Insurance.

The owner or operator of any primary voltage connected SES shall maintain a current general liability policy covering bodily injury and property damage and shall be required to name Rush County as an additional insured with dollar amount limits per occurrence dependent upon the scope of the project and must be determined by the Board of Zoning Appeals. Proof of liability insurance shall be sent to the Executive Director annually; failure to maintain said insurance shall result in cancellation of the Improvement Location Permit by the Executive Director.

7) SECTION 7. RESTRICTIONS PER DISTRICT

7.1) — 7.0 RESIDENTIAL DISTRICT Residential District (R1 or R)

7.1.1) 7.0.1, Intent—

This district has been created to preserve and enhance a safe and pleasant environment for the people of Rush County. It is intended to provide a variety and mix of dwelling types and is an attempt to move away from single family detached subdivisions flowing in an undifferentiated wave over the landscape. This ordinance shall be interpreted as not being against single family, detached housing, but merely with densities that it is not against other dwelling types and mixes and favors these also, as other ordinances in the past have not enable larger developments.

7.1.2) — 7.0.2 Floor Area Ratio – Not to exceed .4.

7.1.3) 7.0.3 Lot Area—

Not less than 8,000 square feet per D.U. if connected to city water and sewer; not eless than one acre per D.U. if connected to a septic tank system. (As amended effective 08-09-93,

7.5.9)7.4.9 Signs intended to be seen outside lot lines.

- (b) b₂ No sign shall project beyond a lot line, obstruct in any way a driver's vision of the road, or hinder her/his passage in any way.
- (c) e₂ No sign shall be placed so as to hinder or obstruct any pedestrian along any pedestrian path.
- (d) D₃ No sign shall be larger than 50 square feet per side.

7.4.10 Performance Standards, as measured at the boundary lines of the "M"

district. All Standards are maximums. Manufacturing uses which exceed

7.5.10) _____ these standards are considered to be in violation of this ordinance.

a. Performance Standards - Noise:

Sound levels shall be measured with a sound level meter and associated octave band filter manufactured according to standards prescribed by the American Standards Association. Measurements shall be made using the flat network of the sound level meter. Impulsive type noises shall be subject to the performance standards hereinafter prescribed, provided that such noises shall be capable of being accurately measured with such equipment. Noises capable of being so measured for the purpose of this ordinance shall be those noises which cause rapid fluctuations of the needle of the sound level meter, with a variation of no more than plus or minus two decibels. Noises incapable of being so measured such as those of an irregular and intermittent nature, shall be controlled so as not to become a nuisance to adjacent uses. At no point on the boundary of the "M" District shall the sound intensity level of any individual operation of plant (other than the operation of motor vehicles or other transportation facilities) exceed the decibel levels in the designated octave bands shown on the following table.

b. Performance Standards Smoke and Particulate Matter:

The emissions of smoke or particulate matter in such a manner or quantity as to endanger or to be detrimental to the public health, safety, comfort, or welfare, is not permitted. For the purpose of grading the density of smoke, the Ringelmann Chart, published and used by the United States Bureau of Mines, shall be employed. Large emission of smoke or particulate matter of a density greater than No. 2 on the Ringelman Chart is prohibited at all times, except as otherwise provided hereinafter. The emission, for all sources within any lot area, of particulate matter containing more than ten percent by weight of particles having a particle diameter larger than 44 microns is prohibited. Dust and other types of air pollution, borne by the wind from such sources as storage area, yards, roads, and the like, within lot boundaries, shall be kept to a minimum by appropriate private landscaping, paving, oiling, fencing, or other acceptable means. Emission of particulate matter from such sources in excess of the weight limitation herein specified is prohibited.

Smoke:

The emission of more than eight smoke units per hour per stack is prohibited, including smoke of a density in excess of Ringelmann No. 2. However, during one one hour period in each 24 hour day, each stack may emit up to 1146 smoke units when blowing soot or cleaning fires. Only during fire cleaning periods, however, shall smoke of Ringelmann No. 3 be permitted, and then for not more than three minutes.

c. Performance Standards Toxic or Noxious Matter:

No use shall, for any period of time, discharge across the boundaries of the lot wherein it is located toxic or noxious matter, such as sewage, in such concentrations as to be detrimental

to, or endanger the public health, safety, comfort, or welfare, or cause injury or damage to property or business.

d. Performance Standards - Odors

The emission of odorous matter in such quantity as to be readily detectable at any point along lot lines, or as to produce a public nuisance or hazard beyond lot lines is prohibited.

e. Performance Standards Fire and Explosion Hazard:

- 1. The storage, utilization or manufacture of materials, or products, ranging from incombustible to moderate burning—as determined for liquids by a closed cup flash point of not less that 187 degrees F—is permitted subject to compliance with all other performance standards for the "M" District.
 - (a) 2. Electrical Disturbance: No use shall cause electrical disturbance adversely affecting radio, television, or other equipment in the vicinity.
 - (b) Noise: No use shall produce noise in such a manner as to be objectionable because of volume, frequency, intermittence, beat, shrillness, or vibration. Said noise shall be muffled or otherwise controlled so as not to become detrimental. However, public safety sirens and related apparatus used solely for public purposes shall be exempt from this standard. This provision does not apply to A1, A2, A3 or A4 zoning districts.
 - (c) Vibration: No use shall cause vibrations or concussions detectable beyond the lot lines without the aid of instruments.
 - (d) Odor: No use shall emit across the lot lines malodorous gas or matter in such quantity as to be detectable at any point along the lot lines. This provision does not apply to A1, A2, A3 or A4 zoning districts.
 - (e) G. Air Pollution: No use shall discharge across the lot lines fly ash, dust, smoke, vapors, noxious, toxic or corrosive matter, or other air pollutants in such concentration as to be detrimental to health, animals, vegetation, or property, or conflict with public air quality standards. Outdoor furnaces, corn burners, and the like are not permitted. This provision does not apply to A1, A2, A3 or A4 zoning districts.
 - (f) Heat and Glare: No use shall produce heat or glare in such a manner as to be a nuisance or create a hazard perceptible from any point beyond the lot lines.

- (g) Water and Solid Waste Pollution: No use shall produce erosion or pollutants in such quantity as to be detrimental to adjacent properties or conflict with public water quality standards. No use shall accumulate within the lot or discharge beyond the lot lines any waste matter, whether liquid or solid, in conflict with applicable public health, safety, and welfare standards and regulations.
- (h) The storage, utilization, or manufacture of materials or products ranging from free or active burning to intense burning as determined for liquids by a closed cup flash point of less than 187 degrees but not less than 105 degrees

 Fahrenheit is permitted, subject to compliance with all other performance standards for the "M" District, and provided the following conditions are met:
 - (1) Said materials or products shall be stored, utilized, or produced within completely enclosed buildings or structures having combustible exterior walls; and
 - (2) (ii) All such buildings or structures shall be set back at least 40 feet from lot lines, or, in lieu thereof, all such buildings or structures shall be protected throughout by an automatic sprinkler system complying with installation standards prescribed by the National Fire Protection

 Association; or if the materials, goods, or products are liquid, the

protection thereof shall be in conformity with the standards prescribed by the National Fire Protection Association.

The utilization in manufacturing processes of materials which produce

flammable or explosive vapors or gases – determined for liquids by a

closed cup flash point of less than 105 degrees F., shall be permitted in

this district provided:

That the final manufactured product does not itself have closed

__cup flash point of less than 187 degrees F.

(ii) That the use and storage of such materials shall be in conformity

— with standards prescribed by the National Fire Protection

Association and the requirements of other ordinances of Rush

maximum lot size for the subdivision of a lot on which an existing home is located is four (4) acres if such additional acreage is needed to comply with setback requirements, or inclusion of accessory buildings, and/or creation of a remainder that is consistent with agricultural uses thereon. Variance from lot size requirements may be granted by Board of Zoning Appeals. Homes that utilize municipal sewer services may have a minimum lot size of one-half (1/2) acre.

(b) b₃ Minimum Lot Width is two hundred feet (200') which shall be measured by using the front property line.

(c) e Yard Setbacks for CFO/CAFO

from State highways which shall be measured for the edge of the public right-of-way. Minimum Front Yard Setback is one thousand five hundred feet (1500') for Federal highways which shall be measured from the edge of the public right-of-way. These setback requirements may be reduced to six hundred sixty feet (660') and one thousand feet (1000'), respectively, if an industry approved buffer, which is designed according to Natural Resources Conservation Service ("NRCS") guideline, is implemented.

2. Minimum Side Yard Setback is two hundred feet (200') which shall be measured from the property line.

7.11) Regulated Livestock (A-3) (Added effective 07-02-2007)- and amended 10/26/2020)

This district has been created to encourage the continuation of agricultural uses of land-while discouraging the addition of single family housing by property owners who are not engaged in those agricultural activities. Larger livestock operations, including CFO/CAFOs and other Indiana Department of Environmental Management ("IDEM") regulated activities may be permitted in this district as well <u>as</u> crop production and other traditional agricultural operations.

1. CLEAN RECORD AWARD. Points are carned by an applicant who has operated a CFO/CAFO in Indiana for at least five (5) years without any IDEM violations during the previous five (5) year period.

2. CLOSURE PLAN, A closure plan sets forth the steps that will be implemented to remove and apply remaining manure and clean pits and/or lagoons if at any time a CFO/CAFO remains idle for twelve (12) consecutive months. An applicant is awarded points for submitting a copy of this plan when applying for a permit.

3. CONCENTRATED ANIMAL FEEDING OPERATIONS (CAFO) Concentrated Animal Feeding Operations or CAFO shall mean the definition as set forth in 327 IAC 5-4-3.

4. CONFINED FEEDING OPERATION (CFO). Confined Feeding Operation, or CFO, shall mean the definition as set forth in 327 IAC 16-2-5 and IC 13-11-2-40.

5. COUNTY VIOLATION. An applicant who has had a violation under this ordinance for which a fine was imposed within the previous five (5) years receives a point deduction.

6. EXISTING LAND USE, Points are awarded based on whether the land is currently being used for crops, pasture or woodland with greater points awarded for utilizing land that is not currently being used for agricultural activity.

7. HOMESTEAD AWARD. An applicant is rewarded for placing a CFO/CAFO nearest to his or her own home (as compared to homes of adjoining property owners). The applicant must own the CFO/CAFO and the real estate on which the home is located or hold an ownership interest in the CFO/CAFO and real estate of at least ten percent (10%) held as a joint tenant, tenant in common, shareholder, partner, member, beneficiary or other legally recognized equity interest holder. Ownership by the applicant's spouse and/or dependent child will also qualify applicant for points as if the ownership interest was applicant's own.

8. IDEM/EPA VIOLATION. In order to protect environmental interests and penalize repeat offenders, an applicant who has had a violation of state or federal CFO/CAFO regulations, including those regulated by the Indiana Department of Environmental Management (IDEM) and the Environmental Protection Agency (EPA), on record during the five (5) year period preceding this application, receives a point deduction. A violation shall be defined as a finding or order, by a governmental agency, such as IDEM or the EPA, or a court of law, in which the applicant as determined to be in violation of state or federal CFO/CAFO regulations. The applicant will be deemed to have such a violation if he or she holds an interest of at least ten percent (10%) in any CFO/CAFO or the real estate upon which it is located where the discharge occurred whether that interest is held as a joint tenant, tenant in common, shareholder, partner, member, beneficiary or, any other legally recognized equity interest holder. Ownership by the applicant's spouse and/or dependent child will also result in a deduction of points as if the ownership interest was the applicant's own.

2. MANURE APPLICATION, Manure may be applied by injection or land applied depending upon the type of manure as well as the topography and soil conditions of the application site.

Injection is the preferred method, and more points are awarded to applicants who are able to utilize this method. Additional points are given if an attachment is used to cover the injection row in a single pass method.

The Indiana Legislature has in IC 36-7-4 and IC 14-28-4 granted the power to local-government units to control land use within their jurisdictions. Therefore, the Board of Commissioners of Rush County, the City Council of Rushville, the Town Board of Glenwood, and the Town Board of Carthage does hereby adopt the following floodplain management regulation.

Formatted: Indent: Left: 1.45", Line spacing: 1.5 lines

(b) Section B. Findings of Fact

(1) (1) The flood hazard areas of Rush County, the City of Rushville, and the Town of Carthage are subject to periodic inundation which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety, and general welfare.

(2) These flood losses are caused by the cumulative effect of obstructions in floodplains causing increases in flood heights and velocities, and by the occupancy in flood hazard areas by uses vulnerable to floods or hazardous to other lands which are inadequately elevated, flood-proofed, or otherwise unprotected from flood damages.

(c) Section C. Statement of Purpose

It is the purpose of this ordinance to promote the public health, safety, and general—welfare and to minimize public and private losses due to flood conditions in specific area by provisions designed to:

(1) Restrict or prohibit uses which are dangerous to health, safety, and property due to water or erosion hazards, which result in damaging increases in erosion or in flood heights or velocities;

- (2) Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
- (3) (3) Control the alteration of natural floodplains, stream channels, and natural protective barriers which are involved in the accommodation of flood waters;
- (4) Control filling, grading, dredging, and other development which may increase erosion or flood damage;
- (5) Prevent or regulate the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards of other lands; and,
- (6) Make federally subsidized flood insurance available for structures and their contents in Rush County, the City of Rushville, and the Towns of Glenwood and Carthage by fulfilling the requirements of the National Flood Insurance Program.

(d) Section D. Objectives

The objectives of this ordinance are:

- (1) To protect human life and health
- (2) (2) To minimize expenditure of public money for costly flood control projects;
- (3) (3) To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public.
- (4) (4) To minimize prolonged business interruptions;
- (5) (5) To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone, and sewer lines, streets, and bridges located in floodplains;

Formatted: List Paragraph, Justified, Indent: Left: 1.6", First line: 0", Line spacing: 1.5 lines

(6) (6) To help maintain a stable tax base by providing for the sound use and development of flood prone area in such a manner as to minimize flood blight areas, and;

(7) (7) To ensure that potential homebuyers are notified that property is in a flood area.

7.14.2) Article 2

Definitions

Unless specifically defined below, words or phrases used in this ordinance shall be interpreted so as to give them the meaning they have in common usage and to give this ordinance its most reasonable application.

A **zone** means portions of the SFHA in which the principal source of flooding is runoff from rainfall, snowmelt, or combination of both. In A zones, floodwaters may move slowly or rapidly, but waves are usually not a significant threat to buildings. These area are labeled as Zone A, Zone AE, Zones A1-A30, Zone AO, Zone AH, Zone AR, and Zone A99 or a FIRM or FHBM. The definitions are presented below:

Zone A: Areas subject to inundation by the one-percent annual chance flood event. Because detailed hydraulic analyses have not been performed, no base flood elevation or depths are shown. Mandatory flood insurance purchase requirements apply.

Zone AE and A1-30: Areas subject to inundation by the one-percent annual chance flood event determined by detailed methods. Base flood elevations are shown within these zones. Mandatory flood insurance purchase requirements apply. (Zone AE is on new and revised maps in place of Zones A1-30.)

Zone AO: Areas subject to inundation by one-percent annual chance shallow flooding (usually sheet flow on sloping terrain) where average depths are between

one and three feet. Average flood depths derived from detailed hydraulic analyses are shown within this zone. Mandatory flood insurance purchase requirements apply.

Zone AH: Areas subject to inundation by one-percent annual chance shallow flooding (usually areas of ponding) where average depths are 1-3 feet. Average flood depths derived from detailed hydraulic analyses are shown within this zone. Mandatory flood insurance purchase requirements apply.

7

Zone AR: Areas that result from the decertification of a previously accredited flood protection system that is determined to be in the process of being restored to provide base flood protection. Mandatory flood insurance requirements apply.

Zone A99: Areas subject to inundation by the one-percent annual chance flood event, but which will ultimately be protected upon completion of an underconstruction Federal flood protection system. These are areas of special flood hazard where enough progress has been made on the construction of a protected system, such as dikes, dams, and levees, to consider it complete for insurance rating purposes. Zone A99 may only be used when the flood protection system has reached specified statutory progress toward completion. No base flood elevations or depths are shown. Mandatory flood insurance purchase requirements apply.

(a) Accessory structure (appurtenant structure) means a structure that is located on the same parcel of property as the principal structure and the use which is incidental to the use of the principal structure. Accessory structures should constitute a minimal initial investment, may not be used for human habitation, and be designed to have minimal flood damage potential. Examples of accessory structures are detached garages, carports, storage sheds, pole barns, and hay sheds.

Addition (to an existing structure) means any walled and roofed expansion to the perimeter of a structure in which the addition is connected by a common load-bearing

Formatted: Indent: Left: 0.5", Line spacing: 1.5 lines

(b) wall other than a firewall. Any walled and roofed addition, which is connected by a firewall or is separated by independent perimeter load-bearing walls, is new construction.

(c) Appeal means a request for a review of the floodplain administrator's interpretation of any provision of the ordinance or a request for a variance.

Formatted: List Paragraph, Line spacing: 1.5 lines, Outline numbered + Level: 4 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 1.45" + Tab after: 1.45" + Indent at: 1.6"

Area of shallow flooding means a designated AO or AH Zone on the community's Flood Insurance Rate Map (FIRM) with base flood depths from one to three feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and indeterminate, and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

(n) Emergency Program means the first phase under which a community participates in the NFIP. It is intended to provide a first layer amount of insurance at subsidized rates on all insurable structures in that community before the effective date of the initial FIRM.

Formatted: List Paragraph, Line spacing: 1.5 lines, Outline numbered + Level: 4 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 1.45" + Tab after: 1.45" + Indent at: 1.6"

Encroachment means the advance or infringement of uses, fill, excavation, buildings, permanent structures or development into a floodplain, which may impede or alter the flow capacity of a floodplain.

Formatted: List Paragraph, Line spacing: 1.5 lines, Outline numbered + Level: 4 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 1.45" + Tab after: 1.45" + Indent at: 1.6"

(p) Existing Construction means any structure for which the "start of construction" commenced before the effective date of the community's first floodplain ordinance.

Formatted: List Paragraph, Line spacing: 1.5 lines, Outline numbered + Level: 4 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 1.45" + Tab after: 1.45" + Indent at: 1.6"

home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the community's first floodplain ordinance.

Five-hundred year flood (500-yer flood) means the flood that has a 0.2percent chance of being equaled or exceeded in any year.

Flood means a general and temporary condition of partial or completed inundation of normally dry land areas from the overflow, the unusual and rapid accumulation, or the runoff of surface waters from any source.

Formatted: List Paragraph, Line spacing: 1.5 lines, Outline numbered + Level: 4 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 1.45" + Tab after: 1.45" + Indent at: 1.6"

(v) Flood Boundary and Floodway Map (FBFM) means an official map on which the Federal Emergency Management Agency (FEMA) or the Federal Insurance Administration (FIA) has delineated the areas of flood hazards and regulatory floodway.

Formatted: List Paragraph, Line spacing: 1.5 lines, Outline numbered + Level: 4 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 1.45" + Tab after: 1.45" + Indent at: 1.6"

(w) Flood Hazard Boundary Map (FHBM) means an official map of a community, issued by FEMA, where the boundaries of the areas of special flood hazard have been identified as Zone A.

Formatted: List Paragraph, Line spacing: 1.5 lines, Outline numbered + Level: 4 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 1.45" + Tab after: 1.45" + Indent at: 1.6"

Flood Insurance Rate Map (FIRM) means an official map of atcommunity, on which FEMA has delineated both the area of special flood hazard and the risk premium zones applicable to the community

(y) Flood Insurance Study (FIS) is the official hydraulic and hydrologic report provided by FEMA. The report contains flood profiles, as well as the FIRM, FBFM (where applicable), and the water surface elevation of the base flood.

Formatted: List Paragraph, Line spacing: 1.5 lines, Outline numbered + Level: 4 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 1.45" + Tab after: 1.45" + Indent at: 1.6"

Floodplain means the channel proper and the areas adjoining any wetland, lake or watercourse which have been or hereafter may be covered by the regulatory flood. The floodplain includes both the floodway and the fringe districts.

Formatted: Indent: Left: 0.5"

Floodplain management means the operation of an overall program of corrective and preventive measures for reducing flood damage and preserving and enhancing, where possible, natural resources in the floodplain, including but not limited to emergency preparedness plans, flood control works, floodplain management regulations, and open space plans.

Formatted: List Paragraph, Line spacing: 1.5 lines, Outline numbered + Level: 4 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 1.45" + Tab after: 1.45" + Indent at: 1.6"

Zoning ordinances, subdivision regulations, building codes, health regulations, special purpose ordinances, and other applications of police power which control development in flood-prone areas. This term describes federal, state, or local regulations in any combination thereof, which provide standards for preventing and reducing flood loss and damage. Floodplain management regulations are also referred to as floodplain regulations, floodplain ordinance, flood damage prevention ordinance, and floodplain management requirements.

Formatted: List Paragraph, Line spacing: 1.5 lines, Outline numbered + Level: 4 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 1.45" + Tab after: 1.45" + Indent at: 1.6"

(cc) Flood Protection Grade (FPG) is the elevation of the regulatory flood plustwo feet at any given location in the SFHA (see "Freeboard")

Formatted: List Paragraph, Line spacing: 1.5 lines, Outline numbered + Level: 4 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 1.45" + Tab after: 1.45" + Indent at: 1.6"

(dd) FloodproofingFlood-proofing (dry floodproofingflood-proofing) is a method of protecting a structure that ensures that the structure, together with attendant utilities and sanitary facilities, is watertight to the floodproofedflood proofed design elevation with walls that are substantially impermeable to the passage of water. All structural components of these walls are capable of resisting hydrostatic and hydrodynamic flood forces, including the effects of buoyancy, and anticipated debris impact forces.

(ee) Flood-proofing certificate is a form used to certify compliance for non-residential structures as an alternative to elevating structures to or above the FPG. The certification must be by a Registered Professional Engineer or Architect.

Formatted: List Paragraph, Line spacing: 1.5 lines, Outline numbered + Level: 4 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 1.45" + Tab after: 1.45" + Indent at: 1.6"

ff) Floodway is the channel of a river or stream and those portions of the floodplains adjoining the channel which are reasonably required to efficiently carry and discharge the peak flood flow of the regulatory flood of any river or stream.

Formatted: List Paragraph, Line spacing: 1.5 lines, Outline numbered + Level: 4 + Numbering Style: a, b, c, ... + Start at: 1 + Alignment: Left + Aligned at: 1.45" + Tab after: 1.45" + Indent at: 1.6"

Freeboard means a factor of safety, usually expressed in feet above the BFE, which is applied for the purposes of floodplain management. It is used to

compensate for the many unknown factors that could contribute to flood heights greater than those calculated for the base flood.

(hh) Fringe is those portions of the floodplain lying outside the floodway.

its intended purpose unless it is located or carried out in close proximity to water, such as a docking or port facility necessary for the loading and unloading of cargo or passengers, shipbuilding, ship repair, or seafood processing facilities. The term does not include long-term storage, manufacture, sales, or service facilities.

hardship (as related to variances of this ordinance) means the exceptional-hardship that would result from a failure to grant the requested variance. The Board of Zoning Appeals requires that the variance is exceptional, unusual, and peculiar to the property involved. Mere economics or financial hardship alone is NOT exceptional. Inconvenience, aesthetic considerations, physical handicaps, personal preferences, or the disapproval of one's neighbors likewise cannot, as a rule, qualify as an exceptional hardship. All of these problems can be resolved through other means without granting a variance, even if the alternative is more expensive, or requires the property owner to build elsewhere or put the parcel to a different use than originally intended.

(kk) Highest adjacent grade means the highest natural elevation of the groundsurface, prior to the start of construction, next to the proposed walls of a structure.

Historic structure means any structure individually listed on the National Register of Historic Places or the Indiana State Register of Historic Sites and Structures.

(mm) Increased Cost of Compliance (ICC) means the cost to repair assubstantially damaged structure that exceeds the minimal repair cost and that is required to bring a substantially damaged structure into compliance with the local flood damage prevention ordinance. Acceptable mitigation measures are

elevation, relocation, demolition, or any combination thereof. All renewal and new business flood insurance policies with effective dates on or after June 1, 1997, will include ICC coverage.

(nn) Letter of Map Amendment (LOMA) means an amendment to the currently effective FEMA map that establishes that a property is not located in a SFHA. A LOMA is issued only by FEMA.

(00) Letter of Map Revision (LOMR) means an official revision to the currently effective FEMA map. It is issued by FEMA and changes flood zones, delineations, and elevation.

(pp) Letter of Map Revision Based on Fill (LOMR-F) means an official revision by letter to an effective NFIP map. A LOMR-F provided FEMA's determination concerning whether a structure or parcel has been elevated on fill above BFE and excluded from SFHA.

(qq) Lowest adjacent grade means the lowest elevation, after completion of construction, of the ground, sidewalk, patio, deck support, or basement entryway immediately next to the structure.

(rr) Lowest floor means the lowest of the following:

- (1) (1) the top of the lowest level of the structure;
- (2) (2) the top of the basement floor;
- (3) (3) the top of the garage floor, if the garage is the lowester level of the structure;
- (4) the top of the first floor of a structure elevated on pilings or pillars;

(5) the top of the first floor of a structure constructed with a crawl space,
provided that the lowest point of the interior grade is at or above the BFE and

(6) the top of the floor level of any enclosure, other than a basement, below an —elevated structure where the walls of the enclosure provide any resistance to

the flow of flood waters unless:

(A) a): the walls are designed to automatically equalize the hydrostatic flood forces on the walls by allowing for the entry and exit of flood waters, by providing a minimum of two openings (in addition to doorways and windows) having a total net area of one (1) square inch for every square foot of enclosed area subject to flooding. The bottom of all such openings shall be no higher than one (1) foot above grade; and,

-construction meets requirements of a 6.aA; or

(B) b). such enclosed space shall be usable solely for the parking of vehicles and building access.

(ss) Manufactured home means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when attached to the required utilities. The term "manufactured home" does not include a "recreational vehicle."

(tt) Manufactured home park or subdivision means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

(uu) Map amendment means a change to an effective NFIP map that results in the exclusion from the SFHA of an individual structure or a legally described parcel of land that has been inadvertently included in the SFHA (i.e. no alterations of topography have occurred since the date of the first NFIP map that showed the structure or parcel to be within the SFHA).

(vv) Map panel number is the four-digit number followed by a letter suffixed assigned by FEMA on a flood map. The first four digits represent the map panel, and the letter suffix represents the number of times the map panel has been revised. (The letter "A" is not used by FEMA, the letter "B" is the first revision.)

(000) Regulatory flood means the flood having a one percent (1%) chance of being equaled or exceeded in any given year, as calculated by a method and procedure that is acceptable to and approved by the Indiana Department of Natural Resources and the Federal Emergency Management Agency. The regulatory flood elevation at any location is as defined in Article 3 (B) of the ordinance. The

for recreational camping, travel, or seasonal use.

"Regulatory Flood: is also known by the term "Base Flood", "One-Percent Annual Chance Flood", and "100-Year Flood".

(ppp) Repetitive loss means flood-related damages sustained by a structure on two separate occasions during a 10-year period ending on the date of the event for which the second claim is made, in which the cost of the repairing the flood damage, on the average, equaled or exceeded 25% of the market value of the structure at the time of each such flood event.

(rrr) Special Flood Hazard Area (SFHA) means those lands within the jurisdiction of Rush County, the City of Rushville, the Town of Glenwood, and the Town of Carthage subject to inundation by the regulatory flood. The SFHAs of Rush County are generally identified as such on the Flood Insurance Rate Map of the County dated December 1, 1982, prepared by the Federal Emergency Management Agency. The SFHAs of the City of Rushville are generally identified as such on the Flood Insurance Rate Map prepared for the City of Rushville by the Federal Emergency Management Agency and dated November 3, 1982. The SFHAs of the Town of Carthage are generally identified as such on the Flood Insurance Rate Map prepared for the Town of Carthage by the Federal Emergency Management Agency and dated November 2, 1983. (These areas are shown on the FHBM or FIRM as Zone A, AE, A1-A30, AH, AR, A99, AO).

(sss) Start of construction includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction,

repair, reconstruction, or improvement was within 180 days of the permit date. The actual start means the first placement or permanent construction of a structure (including a manufactured home) on a site, such as the pouring of slabs or footing, installation of piles, construction of columns, or any work beyond the stage of excavation for placement of a manufactured home on a foundation. Permanent constructions does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, foundations, or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that affects the external dimensions of the building.

Structure means a structure that is principally above ground and is enclosed by walls and a roof. The term includes a gas or liquid storage tank, a manufactured home, or a prefabricated building. The term also includes recreational vehicles to be installed on a site for more than 180 days. See also 5.1.54)

(uuu) Substantial improvement means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before the "start of construction" of the improvement. This term includes structures that have incurred "repetitive loss" or substantial damage" regardless of the actual repair work performed. The term does not include improvements of structures to correct existing violations of state or local health, sanitary, or safety code requirements or any alteration of a "historic structure", provided that the alteration will not preclude the structures continued designation as a "historic structure".

Suspension means the removal of a participating community from the NFIPbecause the community has not enacted and/or enforced the proper floodplain management regulations required for participation in the NFIP. Violation means the failure of a structure or other development to be fully compliant with this ordinance. A structure or other development without the elevation, other certification, or other evidence of compliance required in this ordinance is presumed to be in violation until such time as that documentation is provided.

Water surface elevation means the height, in relation to the North*
American Vertical Datum of 1988 (NAVD 88) or National Geodetic Vertical
Datum (NGVD) of 1929, (or other datum where specified) of floods of various magnitudes and frequencies in the floodplains of riverine areas.

(aaaa) X zone means the area where the flood hazard is less than that in the SFHA. Shaded X zones shown on recent FIRMs (B zones on older FIRMS) designated areas subject to inundation by the flood with a 0.2 percent chance of being equaled or exceeded (the 500-year flood). Unshaded X zones (C zones on the older FIRMs) designate areas where the annual exceedance probability of flooding is less than 0.2 percent.

(cccc) Zone A (see definition for A zone)

(dddd) Zone B, C, and X means areas identified in the community as areas of moderate or minimal hazard from the principal source of flood in the area. However, buildings in these zones could be flooded by severe, concentrated rainfall coupled with inadequate local drainage systems. Flood insurance is available in participating communities but is not required by regulation in these zones. (Zone X is used on new and revised maps in place of Zones B and C.)

(a) Section A. Lands to Which This Ordinance Applies

This ordinance shall apply to all SFHAs within the jurisdiction of Rush County, the City of Rushville, and the Towns of Carthage and Glenwood.

(b) Section B. Basis for Establishing Regulatory Flood Data

This ordinance's protection standard is the regulatory flood. The best availableregulatory flood data is listed below. Whenever a party disagrees with the best
available data, the party submitting the detailed engineering study needs to replace
existing data with better data and submit it to the Indiana Department of Natural
Resources for review and approval.

(2) (2) The regulatory flood elevation, floodway, and fringe limits for the studied SFHAs of the Flatrock River and Hodges Branch shall be as

(e) Section E. Abrogation and Great Restrictions

This ordinance is not intended to repeal, abrogate or impair any existing easements, covenants, or deed restrictions. However, where this ordinance and another conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

(f) Section F. Discrepancy between Mapped Floodplain and Actual Ground Elevations

- (1) (1) In cases where there is a discrepancy between the mapped-floodplain (SFHA) or the FIRM and the actual ground elevations, the elevation provided on the profiles shall govern.
- (2) (2) If the elevation of the site in question is below the base flood-elevation, that site shall be included in the SFHA and regulated accordingly.
- (3) (3) If the elevation (natural grade) of the site in question is above the base flood elevation, that site shall be considered outside the SFHA and the floodplain regulations will not be applied. The property owner should be advised to apply for a LOMA.

(g) Section G. Interpretation

In the interpretation and application of this ordinance all provisions shall be;

- (1) Considered as minimum requirements
- (2) Liberally construed in favor of the governing body; and,
- (3) Deemed neither to limit nor repeal any other powers granted under state statutes.

The degree of flood protection required by this ordinance is consideredreasonable for regulatory purposes and is based on available information derived
from engineering and scientific methods of study. Larger floods can and will
occur on rare occasions. Therefore, this ordinance does not create any liability
on the part of Rush County, the City of Rushville, the Town of Carthage, the
Town of Glenwood, the Indiana Department of Natural Resources, or the State
of Indiana, for any flood damage that results from reliance on this ordinance or
any administrative decision made lawfully there under.

(i) Section I. Penalties for Violation

Failure to obtain a Floodplain Development Permit in the SFHA or failure to comply with the requirements of a Floodplain Development Permit or conditions of a variance shall be deemed to be a violation of this ordinance. All violations shall be considered a common nuisance and be treated as such in accordance with the provisions of the Zoning Code for Rush County. All violations shall be punishable by a fine not exceeding \$2,500.00.

- (1) A separate offense shall be deemed to occur for each day the violation continues to exist.
- (2) The Rush County Area Plan Commission shall inform the owner that any such violation is considered a willful act to increase flood damages and therefore may cause coverage by a Standard Flood Insurance Policy to be suspended.
- (3) Nothing herein shall prevent the Rush County Area Plan Commission and/or—the Board of Zoning Appeals from taking such other lawful action to prevent—or remedy any violations. All costs connected therewith shall accrue to the

(13) (13) Revocation of Permits

The Floodplain Administrator may revoke a permit or approval, issued
 under the provisions of the ordinance, in cases where there has been any
 false statement or misrepresentation as to the material fact, in the

____application or plans on which the permit or approval was based.

— the Floodplain Administrator may revoke a permit upon—determination by the Floodplain Administrator that the construction,—erection, alteration, repair, moving, demolition, installation, or—replacement of the structure for which the permit was issued is in

(A) <u>violation</u> of, or not in conformity with, the provisions of this ordinance.

7.14.5) Article 5

Provisions for Flood Hazard Reduction

(a) Section A., General Standards

In all SFHAs the following provisions are required:

(1) New construction and substantial improvements shall be anchored to prevent flotation, collapse or lateral movement of the structure;

(2) (2) Manufactured homes shall be anchored to prevent flotation, collapse, or lateral movement. Methods of anchoring may include, but not limited to, use of over-the-top or frame ties to ground anchors. This standard shall be in addition to and consistent with applicable state requirements for resisting wind forces;

(3) (3) New construction and substantial improvements shall be constructed with materials and utility equipment resistant to flood damage below the FPG;

(4) New construction and substantial improvements shall be constructed by methods and practices that minimize flood damage;

(5) Electrical, heating, ventilation, plumbing, air conditioning equipment and other service facilities shall be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding;

(6) New and replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system.

(7) New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the system.

(8) (8) On-site water disposal systems shall be located and constructed to avoid impairment to them or contamination from them during flooding.

(9) (9) Any alteration, repair, reconstruction or improvements to a structure that is in compliance with the provisions of the ordinance shall meet the requirements of the "new construction" as contained in the ordinance, and,

(10) Any alteration, repair, reconstruction, or improvement to a structure that is not in ——compliance with the provisions of this ordinance, shall be undertaken only if said ______non-conformity is not further, extended, or replaced.

In all SFHAs, the following provisions are required:

(1) (1) In addition to the requirements of Article 5, Section A, all structures to be located in the SFHA shall be protected from flood damage below the FPG. This building protection requirement applies to the following situations:

(A) a. Construction or placement of any new structure having a floor area greater than 400 square feet;

(B) b. Structural alterations made to:

<u>i</u> (i) an existing (previously unaltered structure), the cost of which equals or exceeds 50% of the value of the pre-altered structure (excluding the value of the land);

ii (ii) any previously altered structure.

(C) e- Reconstruction or repairs made to a damaged structure that are valued at more than 50% of the market value of the structure (excluding the value of the land) before damage occurred;

(D) d. Installing a travel trailer or recreational vehicle on a site for more than 180 days;

(E) e- Installing a manufactured home on a new site or a new manufactured -home on an existing site. This ordinance does not apply to returning the existing manufactured home to the same site it lawfully occupied before it was removed to avoid flood damage, and

(F) f. Reconstruction or repairs made to a repetitive loss structure.

(2) Residential Construction. New construction or substantial improvement of

(2) ——any residential structure (or manufactured home) shall have

the lowest floor, including the basement, at or above the FPG (two feet

(3) Non-Residential Construction. New construction or substantial improvement of any commercial, industrial, or non-residential structure (or manufactured) shall have the lowest floor, including basement, elevated to or above the FPG (two feet above the base flood elevation). Structures located in all "A Zones" may be floodproofedflood-proofed in lieu of being elevated if done in accordance with the following:

(A) A Registered-Professional Engineer or Architect shall certify that the structure has been designed so that below the FPG the structure and attendant utility facilities are watertight and capable of resisting the effects of the regulatory flood. The structure design shall take into account flood velocities, duration, rate of rise, hydrostatic pressures, and impacts from debris or ice. Such certification shall be provided to the official as set forth in Article 4, Section C (10).

(4) Elevated Structures. New construction or substantial improvements of (4) elevated structures that included fully enclosed areas formed by foundation and other exterior walls below the base flood elevations shall be designed to preclude finished living space and designed to allow for the entry and exit of floodwaters to automatically equalize hydrostatic flood forces on exterior walls.

<u>i</u> (i) provide a minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding.

<u>ii</u> (ii) the bottom of all openings shall be no higher than one foot above foundation interior grade (which must be equal to or higher in elevation than the exterior foundation grade); and

<u>iii</u> (iii) openings may be equipped with screens, louvers, valves or other coverings or devices provided they permit the automatic flow of floodwaters in both directions.

iv (iv) access to the enclosed area shall be the minimum necessary to allow for parking for vehicles (garage door) or limited storage of maintenance equipment used in connection with the premises (standard exterior door) or entry to the living area (stairway or elevator); and

v (v) the interior portion of such enclosed area shall not be partitioned or finished into separate rooms.

vi (vi) portions of the building below the flood protection grade must be constructed with materials resistant to flood damage.

(5) (5) Structures Constructed on Fill. A residential or nonresidential structure may be constructed on a permanent land fill in accordance with the following:

a. The fill shall be placed in layers no greater that 1-foot deep before

(A) compacting to 95% of the maximum density obtainable with the Standard Proctor Test method.

(B) b. The fill should extend at least ten feet beyond the foundation of ◆ the structure before sloping below the FPG.

(C) e- The fill shall be protected against erosion and scour during flooding by vegetative cover, riprap, or bulkheading. If vegetative cover is used, the slopes shall be no steeper than 3 horizontal to 1 vertical.

(D) d. The fill shall not adversely affect the flow of surface drainage from or onto neighboring properties.

(E) e. The top of the lowest floor including basements shall be at or above the FPG.

(6) (6) Standards for Structures Constructed with a Crawlspace. A residential or nonresidential structure may be constructed with a crawlspace located below the flood protection grade provided that the following conditions are met:

(A) a. The building must be designed and adequately anchored to resist flotation, collapse, and lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy, and:

(B) b. Any enclosed area below the flood protection grade shall have openings that equalize hydrostatic pressures by allowing for the automatic entry and exit of floodwaters. Provide a minimum of two openings having a total net area of not less than one square inch for every one square foot of enclosed area. The bottom of the openings shall be no more than one foot above grade; and

(C) e. The interior grade of the crawlspace must be at or above the base flood elevation; and

(D) d. The interior height of the crawlspace measured from the interior grade of the crawlspace to the top of the foundation wall must not exceed four feet at any point; and

(E) e. An adequate drainage system must be installed to remove floodwaters from the interior area of the crawlspace within a reasonable period of time after a flood event; and

Critical facilities constructed within the SFHA shall have the lowest floor elevated to or above the FPG at the site. Floodproofing and sealing measures must be taken to ensure that toxic substances will not be displaced by or released into floodwaters. Access route elevated to or above the FPG shall be provided to all critical facilities to the extent possible.

(e) Section E. Standards for Identified Floodways,

Located within SFHAs, established in Article 3, Section B. are areas designated as floodways. The floodway is an extremely hazardous area due to the velocity of floodwaters, which carry debris, potential projectiles, and has erosion potential. If the site is in an identified floodway, the Floodplain Administrator shall require the applicant to forward the application, along with all pertinent plans and specifications, to the Indiana Department of Natural Resources and apply for a permit for construction in a floodway. Under the provisions of IC 14-28-1, a permit for construction in a floodway from the Indiana Department of Natural Resources is required prior to the issuance of a local building permit for an excavation, deposit, construction or obstruction activity located in the floodway. This includes land preparation activities such as filling, grading, clearing, paving, etc, undertaken before the actual start of construction of the structure. However, it does exclude non-substantial additions/improvements to existing (lawful) residences in a non-boundary river floodway. (IC 14-28-1-26 allows construction of non-substantial additions/improvements to residences in a non-boundary river floodway without obtaining a permit for construction in a floodway from the Indiana Department of Natural Resources. Please note that if fill is needed to elevate an addition above the existing grade, prior approval (construction in a floodway permit) for the fill is required from the Indiana Department of Natural Resources.)

No action shall be taken by the The Floodplain Administrator shall take no action until a permit (when applicable) has been issued by the Indiana Department of Natural Resources granting approval for construction in a floodway. Once a permit for construction in a floodway has been issued by the Indiana Department of Natural Resources, the Floodplain Administrator may issue the local Floodplain Development Permit, provided the provisions contained in Article 5 of this ordinance has been met. The Floodplain Development Permit cannot be less restrictive than the permit for construction in a floodway issued by the Indiana Department of Natural Resources. However a community's more restrictive regulations (if any) shall take precedence.

_No development shall be allowed which acting alone or in combination with existing or future development will increase the regulatory flood more than 0.14 of one foot.

_For all projects involving channel modifications of fill (including levees) the Rush County Area Plan Commission shall submit the data and request that the Federal Emergency Management Agency revise the regulatory flood data.

(f) Section F. Standards for Identified Fringe,

Jf the site is located in an identified fringe, then the Floodplain Administrator may issue the local Floodplain Development Permit provided the provisions contained in Article 5 of this ordinance have been met. The key provision is that the top of the lowest floor of any new or substantially improved structure shall be at or above the FPG.

(1) Trainage area upstream of the site is greater than one square mile:

—If the site is in an identified floodplain where the limits of the floodway and fringe have not yet been determined, and the drainage area upstream of the site is greater than one square mile, the Floodplain Administrator shall require the applicant to forward the application, along with all the pertinent plans and specifications, to the Indiana Department of Natural Resources for review and comment.

No action shall be taken by the Floodplain Administrator until either a permit for construction in the floodway or a floodplain analysis/regulatory assessment citing the 100 year flood elevation and the recommended Flood Protection Grade have been received from the Indiana Department of Natural Resources.

Once the Floodplain Administrator has received the proper construction in a floodway permit or floodplain analysis/regulatory assessment approving the proposed development, a Floodplain Development Permit may be issued provided the conditions of the Floodplain Development Permit are not less restrictive than the conditions received from the Indiana Department of Natural Resources and the provisions contained in Article 5 of this ordinance have been met.

(2) Drainage area upstream of the site is less than one square mile:

-If the site is in an identified floodplain where the limits of the floodway
-and fringe have not yet been determined and the drainage area upstream of
_the site is less than one square mile, the Floodplain Administrator shall
require the applicant to provide an engineering analysis showing the limits
of the floodway, fringe and 100-year flood elevation for the site.

8) — CERTIFICATES OF ZONING COMPLIANCE

8.1 Administrative and Enforcement

-The Executive Director designated by the Area Plan Commission shall
-Administer and enforce this ordinance. He may be provided with the
- assistance of such other persons as the Area Plan Commission may direct. If
- the Executive Director shall find that any of the provisions of this ordinance
- are being violated, he shall notify in writing the person responsible for such
- violations, indicating the nature of the violation and ordering the action
- necessary to correct it.

He shall order discontinuance of illegal use of land, buildings, or structures;

—removal of illegal buildings or structures or of illegal additions, alterations,

—or structural changes; discontinuance of any illegal work being done; or

—shall take any other action authorized by this ordinance to ensure

—compliance with or to prevent violation of its provisions.

8.2 Improvement Location Permits Required

No building or other structure shall be erected, moved, added to, or structurally altered without a permit therefore, issued by the Executive Director. No improvement location permit shall be issued by the Executive Director except in conformity inconformity with the provisions of this ordinance, unless he receives a written order from the Board of Zoning Appeals in the form of an administrative review, special exception, or variance as provided by this ordinance.

8.4) Certificates of Zoning Compliance for New, Altered, or Non-Conforming Uses

It shall be unlawful to use or occupy or permit the use of occupancy of any building or premises, or both, or part thereof hereafter created, erected, changed, converted, or wholly or partly altered or enlarged in its use or structure until a certificate of zoning compliance shall have been issued therefore by the Executive Director stating that the proposed use of the building or land conforms to the —requirements of this ordinance.

-No non-conforming structure or use shall be renewed, changed, or extended until-a certificate of zoning compliance shall have been issued by the Executive -Director. The certificate of zoning compliance shall state specifically wherein the -non-conforming use differs from the provisions of this ordinance. (As amended —effective 02-01-88).

-No permit for erection, alteration, moving, or repair of any building shall be -issued until an application has been made for a certificate of zoning compliance, -and the certificate shall be issued in conformity with the provisions of this -ordinance upon completion of the work. A temporary certificate of zoning -compliance may be issued by the Executive Director for a period not exceeding -six months during alterations or partial occupancy of a building pending its -completion, provided that such temporary certificate may include such conditions

8.7 National Flood Insurance Program Regulations

The Executive Director during <u>her/</u>his review of Improvement Location Permits shall assure that all NFIP regulations pertaining to State and Federal permits, building -permit review procedures, subdivision review procedures, utility construction, -record keeping (lowest floor elevations including basements), water-course alteration and maintenance and mobile home tie downs have been met. The

—regulations can be found in Federal Regulations CFR 44, Chapter 60.3 (d).\

SECTION 9:

9) **BOARD OF ZONING APPEALS -Proceedings**

9.1) 9.1 Proceedings of the Board of Zoning Appeals

-The Board of Zoning Appeals shall adopt rules necessary to the conduct of its affairs and in keeping with the provisions of this ordinance. Meetings shall be -held at the call of the chairman and at such times as the Board may determine. -The chairman, or in her/his absence the acting chairman, may administer oaths and compel the attendance of witnesses. All meetings shall be open to the public. The Board of Zoning Appeals shall keep minutes of its proceedings, showing the vote of each member upon each question, or if absent or failing to vote indicating such fact, and shall keep records of its examinations and other official actions, all of which shall be a public record and be immediately filed in the office of the Board.

Hearings; Appeals; Notice

Appeals to the Board of Zoning Appeals concerning interpretation or administration of this ordinance may be taken by any person aggrieved or by any officer or bureau of the governing body of the area affected by any decision of the Executive Director. Such appeals shall be taken within a reasonable time, not to exceed 30 days by filing with the Executive Director and with the Board of Zoning Appeals a notice of appeal specifying the grounds thereof. The Executive Director shall forthwith transmit to the Board all papers constituting the record -upon which the action appealed from was taken. (As amended effective 02-01-88) Formatted: Header

). The Board of Zoning Appeals shall fix a reasonable time for the hearing of appeal, give public notice thereof as well as due notice to the parties of interest, and decide the same within a reasonable time. At the hearing, any party may appear in person or by agent or attorney.

9.3) 9.3 Stay of Proceedings

An appeal stays all proceedings in furtherance of the action appealed from, unless
 -the Executive Director from whom the appeal is taken certifies to the Board of
 -Zoning Appeals after the notice of appeal is filed with him, that by reason of facts
 -stated in the certificate, a stay would, in here/his opinion, cause imminent peril to life
 -and property. In such case, proceedings shall not be stayed other than by a
 -restraining order which may be granted by the Board of Zoning Appeals or by a
 -court of record on application, on notice to the Executive Director from whom the
 -appeal is taken and on due cause shown.

SECTION 10: THE BOARD OF ZONING APPEALS:

10) Duties POWERS ANDAN DUTIES

The Board of Zoning Appeals shall have the following powers and duties:

10.1) 10.1 Administrative Review

To hear and decide appeals where it is alleged there is an error in any order,
 requirements, decision, or determination made by the Executive Director in the
 enforcement of this ordinance.

10.2) 10.2 Special Exceptions: Conditions Governing Applications; Procedures

-To hear and decide only such special exception as the Board of Zoning Appeals is -specifically authorized to pass on by the terms of this ordinance; to decide such -questions as are involved in determining whether special exceptions should be -granted; and to grant special exceptions with such conditions and safeguards as -are appropriate under this ordinance, or to deny special exceptions when not in -harmony with the purpose and intent of this ordinance. A special exception shall —not be granted by the Board of Zoning Appeals unless and until:

a. A written application for a special exception is submitted indicating the section of this ordinance under which the special exception is sought and 10.2.1) stating the ground on which it is requested.

The owner of the property for which special exception is sought or her/his
agent shall be notified by mail. Notice of such hearings shall be posted on the property for which special exception is sought, in one other public place, and in newspaper of general circulation at least ten (10) days prior

10.2.2) to the public hearing. (As amended 02-01-88)

e. The public hearing shall be held. Any party may appear in person, or 10.2.3 by agent or attorney.

d. The Board of Zoning Appeals shall make a finding that it is empowered under the section of this ordinance described in the application to grant the Special Exception, and that the granting of the Special

10.2.4 Exception will not adversely affect the public interest.

e. Before any Special Exception shall be issued, the Board shall make written findings certifying that all applicable restrictions of the district in which the Special Exception is to be located have been followed, as well as such additional restrictions which the Board may see fit to impose. The Board shall ascertain that satisfactory provision and arrangement has been 10.2.5) made concerning the following, where applicable:

(1). Ingress and Egress to property and proposed structures thereon with particular reference to automotive and pedestrian safety and convenience, traffic flow and control, and access in case (a) of fire or catastrophe;

(2). Off-street parking and loading areas where required, with particular attention to the items in (1) above and the economic, noise, glare, or odor effects of the special exception on adjoining

(b) properties generally in the district;

(3). Refuse and service areas, with particular reference to the items (c) in (1) and (2) above;

(d) (4). Utilities, with reference to locations, availability and compatibility;

(e) (5). Screening and buffering of objectionable or unsafe views, odors, noises, or vibrations, with reference to type, dimensions, and character;

g. In granting any variance, the Board of Zoning Appeals may prescribe appropriate conditions and safeguards in conformity with this ordinance.

Violation of such conditions and safeguards, when made a part of the terms under which the variance is granted, shall be deemed a violation of this ordinance and punishable under Section 16 of this ordinance.

(h) h. Under no circumstances shall the Board of Zoning Appeals grant a variance to allow a use not permissible under the terms of this Ordinance in the district involved, or any use expressly or by implication prohibited by the terms of this ordinance in said district.

10.4) 10.4 Temporary Special Exception

When the acceptability of a Special Exception cannot be determined by the Board of Zoning Appeals, the Board may grant a one (1) year Temporary Special Exception and Temporary Variances. At the end of the one year, the Board may (a) renew the Temporary Special Exception for an additional year, (b) renew the Temporary Special Exception for five (5) years, (c) grant a permanent Special Exception and permanent Variances or, (d) terminate the Special Exception. If the renewal is for five years, at the end of the five years, the Board may renew or terminate the Temporary Special Exception or grant a permanent Special Exception and permanent Variances.

10.5) 10.5 Variance in Open Land (Flood Hazard) District

Applications for variances to the petitioner of this ordinance shall be forwarded to the Indiana Department of Natural Resources for review and comment. All terms and conditions imposed by the Natural Resources shall be incorporated into the issuance of any local permit.

14) SECTION 14. AMENDMENTS

The regulations, restrictions, and boundaries set forth in this ordinance may from time to time be amended, supplemented, changed, or repealed provided however that no such action may be taken until after a public hearing in relation thereto, at which parties in interest and citizens shall have an opportunity to be heard. At least 10-days-day's notice of the time and place of such hearing shall be published in a newspaper of general circulation in the county.

When a proposed amendment affects the zoning classification of property, and in case a protest against such change is signed by the owners of 20 percent or more wither of the area of the lots included in such proposed change, or of those immediately adjacent in the rear thereof extending 200 feet there from, or of those directly opposite thereto extending 100 feet from the street frontage of such opposite lots, then such amendments shall not become effective except by the favorable vote of the Area Plan Commission and subsequently by the favorable vote of a constitutional majority of the respective legislative bodies.

15) SECTION 15: PROVISIONS OF ORDINANCE DECLARED TO BE MINIMUM REQUIREMENTS

In their interpretation and application, the provisions of this ordinance shall be held to be minimum requirements, adopted for the promotion of the public health, safety, or general welfare. Whenever the requirements of this ordinance are at variance with the requirements of any other lawfully adopted rules, regulations, ordinances, deed restrictions, or covenants, the most restrictive or that imposing the higher standards, shall govern.

Whenever a violation of this ordinance occurs, or is alleged to have occurred, any person may file a written complaint. Such complaint stating fully the causes and basis thereof shall be filed with the Executive Director. He shall record properly such complaint, immediately investigate, and take action thereon as provided by this ordinance.

17) SECTION 17: PENALTIES FOR VIOLATION

Violations of the provisions of this ordinance or failure to comply with any of its requirements (including violations of conditions and safeguards established in connection with grants of variances or special exceptions) shall constitute a common nuisance. Any person who violates this ordinance or fails to comply with any of its requirements shall be subject to all remedies and/or a fine not less than \$50.00 nor more than \$2,500.00 and shall pay all costs. (As amended effective 08-09-93) Each day such violation continues shall be considered a separate offense. (as amended effective 02-01-88)

The owner or tenant of any building, structure, premises, or part thereof, and any architect, builder, contractor, agent, or other person who commits, participates in, assists in, or maintains such violation may each be found guilty of a separate offense and suffer the penalties herein provided.

Nothing herein contained shall prevent the county, city, or towns from taking such other lawful action as is necessary to prevent or remedy any violation.

18) SECTION 18: SEPARABILITY CLAUSE

Should any section or provision of this ordinance be declared by the courts to be unconstitutional or invalid, such decision shall not affect the validity of the ordinance as a whole or any part thereof other than the part so declared to be unconstitutional or invalid.

The following definitions and explanations shall apply to applications for Improvement

Location Permits, the CFO/CAFO Site Scoring System, and the Regulated Livestock (A-3)

Housing Scoring System.

1. CLEAN RECORD AWARD. Points are earned by an applicant who has operated a CFO/CAFO in Indiana for at least five (5) years without any IDEM violations during the previous five (5) year period.

2. CLOSURE PLAN. A closure plan sets forth the steps that will be implemented to remove and apply remaining manure and clean pits and/or lagoons if at any time a CFO/CAFO remains idle for twelve (12) consecutive months. An applicant is awarded points for submitting a copy of this plan when applying for a permit.

3. CONCENTRATED ANIMAL FEEDING OPERATIONS (CAFO) Concentrated Animal Feeding Operations or CAFO shall mean the definition as set forth in 327 IAC 5-4-

4. CONFINED FEEDING OPERATION (CFO). Confined Feeding Operation, or CFO, shall mean the definition as set forth in 327 IAC 16-2-5 and IC 13-11-2-40.

5. COUNTY VIOLATION. An applicant who has had a violation under this ordinance for which a fine was imposed within the previous five (5) years receives a point deduction.

6. EXISTING LAND USE. Points are awarded based on whether the land is currently being used for crops, pasture or woodland with greater points awarded for utilizing land that is not currently being used for agricultural activity.

7. HOMESTEAD AWARD. An applicant is rewarded for placing a CFO/CAFO nearest to his or her own home (as compared to homes of adjoining property owners). The applicant must own the CFO/CAFO and the real estate on which the home is located or hold an ownership interest in the CFO/CAFO and real estate of at least ten percent (10%) held as a joint tenant, tenant in common, shareholder, partner, member, beneficiary or other legally recognized equity

interest holder. Ownership by the applicant's spouse and/or dependent child will also qualify applicant for points as if the ownership interest was applicant's own.

8. JDEM/EPA VIOLATION. In order to protect environmental interests and penalize repeat offenders, an applicant who has had a violation of state or federal CFO/CAFO regulations, including those regulated by the Indiana Department of Environmental Management (IDEM) and the Environmental Protection Agency (EPA), on record during the five (5) year period preceding this application, receives a point deduction. A violation shall be defined as a finding or order, by a governmental agency, such as IDEM or the EPA, or a court of law, in which the applicant as determined to be in violation of state or federal CFO/CAFO regulations. The applicant will be deemed to have such a violation if he or she holds an interest of at least ten percent (10%) in any CFO/CAFO or the real estate upon which it is located where the discharge occurred whether that interest is held as a joint tenant, tenant-in-common, shareholder, partner, member, beneficiary or, any other legally recognized equity interest holder. Ownership by the applicant's spouse and/or dependent child will also result in a deduction of points as if the ownership interest was the applicant's own.

All CFO/CAFO's must include a Shelterbelt regardless of which additional techniques are

utilized. A shelterbelt shall be installed in accordance with NRCS standards.

Driveway sprinkling may be done with emulsion oil, water or dust stay material similar to the material used by the highway department and should be repeated as frequently as is necessary for absorption.

13, PARCEL Contiguous real estate that is identified by a given tax parcel number shall be considered a parcel herein.

14. SECTION DENSITY Seven (7) levels are created based upon the number of homes located within a one-half (1/2) mile radius from the proposed structure.

15, SEPARATION FROM HOUSE, PUBLIC USE FACILITY, CHURCH

Applicants earn points based upon the separation distance from the proposed location of the CFO/CAFO facility to a house, public use facility or church. A "public use facility" shall include any facility located upon land owned by any federal, state, or local governmental or political entity which is operated to attract the public and allow them to congregate for significant periods of time. Public use facility shall include but not be limited to a park, picnic area, campground, lodge, shelter house, playground, lake, and swimming beach. A highway, road right-ofway, parking area, recreational trail and any other area used by the public for a passageway or temporary parking are specifically excluded from the definition of public use facility herein. The separation distance is measured between the CFO/CAFO livestock structure with a pit or the open lagoon (whichever is closest) to the nearest parcel line of the house, public use facility or church.

16, SOIL Suitability of soil shall be determined by US Department of Agriculture ("USDA") standards as set forth in Table 4 of the USDA Soil Survey Report (1986).

This notice is given to you because of your application for a Improvement Location		Formatted: Font: 12 pt
Permit to build or move a home into an area of Rush County that is zoned for Agriculture.		
The purpose of this notice is to assure you are aware that all agricultural operations are allowed in this area.		
Agricultural activity may include, but is not limited to, grazing of livestock, confined feeding of livestock, application of animal manure to land, application of pesticides to fields and growing crops, creation of dust from field operations and noise from livestock and machinery operations at all hours.		
Single family dwellings are permitted uses of land in an Agricultural Zone, and this is not restricted to farm families. However, people who choose to live in these areas must understand that agricultural operations may be occurring nearby.		
You must also understand that Indiana has a "RIGHT TO FARM" law that protects farm operations from unwarranted nuisance suits by neighbors who move next to an existing farm		
operation, Farm operations do not constitute a nuisance so long as they are not negligently maintained, do not endanger human health and do not cause bodily injury to third parties.		Formatted: Font: 12 pt
By signing this notice form you verify that you have received it, read it and understand it. You are not giving up the right to seek redress for negligence by individuals associated with a farm operation or by other residents of the area.
